### **Art. 3.1 Students with income and assets in Italy Requirements**

**a) ISEE not exceeding € 23,000.00**

**b) ISPE not exceeding € 50,000.00**

For students - Italian or foreign - with income and / or assets in Italy, the economic condition is identified on the basis of the Equivalent Economic Situation Indicator **specifically issued for benefits relating to the right to university study**, hereinafter referred to as University ISEE, and on the basis of the Equivalent Asset Situation Indicator, referred to hereinafter as **ISPE**.

## NOTES

Assignee: the student who, in possession of the merit and income requirements required by the Application Process, is the assignee of the benefits for the Right to Education.

Credit bonus: number of training credits that the student can use in addition to those actually obtained to achieve the (minimum) merit requirements set out in the Call for Applications.

Normal duration of the study course: the duration of the study course provided for under current legislation within which the student may achieve their final qualification. The legal duration of the Bachelor's degree is three years while that of the Master's degree is two years. The normal duration of single-cycle degree courses is 5 years.

Single Substitute Declaration (DSU): the model by which a citizen declares their income, assets and family situation, further indicating benefits or services they intend to request over the course of the year. A citizen, by presenting the DSU, assumes full responsibility, including penal, for that stated. The DSU can be submitted directly online via the INPS website. Alternatively, it is possible to contact a Tax Assistance Center (CAF).

ISEE is a value that allows us to measure the economic condition of the family of the student and which takes account of income, assets (movable and immovable) and the characteristics of the family unit (number and type).

The current ISEE can be requested when, despite already being in possession of a valid ordinary ISEE, there is a change of circumstances at work or an interruption of social security, welfare and indemnity treatments not included in the total income (declared for the purposes of IRPEF) for one or more members of the family unit; or, furthermore when there is a decrease in the overall income capacity of the family unit of more than 25%.

ISEE Non-compliance occurs when INPS, upon issuing the ISEE, detects omissions, discrepancies, inconsistencies with respect to what is declared by persons concerned.

ISPE (Equivalent Asset Situation Indicator) is calculated by dividing the amount of the ISP (Asset Situation Indicator) of the student's family unit by the coefficient of the equivalence scale corresponding to the members of the family unit. The ISP is determined by adding, for each member of the family unit, the value of the real estate assets and the value of the movable assets.

Absolute first enrollment: any previous enrollment that the student may have made at any University / Academy in Italy or abroad with relation to the same level of study for which the benefit is requested, regardless of the outcome of that study (abandonment of studies, transfer, graduation, etc.).
